**Instructions:** Read the student consent form together which explains the purpose of the program and voluntary nature of the survey.

**Example script:** I've enjoyed visiting with your class. Now, I'm going to ask you some questions about what we've been talking about. There are no right or wrong answers. You can help us improve our classes by participating.

Think about what you've learned or do differently after participating in this series of classes/activities. When I say "classes" I'm referring to **X** (remind them of the lessons or activities delivered by **referencing the key topics covered or specific activities**).

*Note: Be careful to share the lesson topics without prompting specific responses (eat more FV, exercise more, drink water instead of SSBs, etc.).*

Let them know that it's okay if they didn't learn anything new (or do anything differently). If that's the case, they can just respond "nothing".

Distribute and collect back the Student Surveys and attach them to this **Cover Page**.
